

SECURITY INFORMATION

Chief, Geographic Research Area

8 April 1953

Acting Chief, Geography Division

Intelligence Support for SR Operations

1. The following is an estimate in man-months of professional time which will be necessary to support SR operations for the Fiscal Year 1954. This applies to the Geography Division only.

<u>Subject</u>	<u>Man-Months</u>
Areas	100
Borders	26
Coasts	16
Transportation Net	26
	<u>168</u>
	14 man-years

a. Part of the estimated work to be absorbed by a prospective staff of nine professionals (and one typist) as of September 1953 -- subtract 4 man-years

b. Assuming that DD/P will be satisfied with less than they have requested -- subtract 4 man-years

2. Therefore, the USSR Branch of D/GG will need an additional five professionals and one sub-professional who will act as a research assistant, bat boy (for inter-library loans, etc.), and perhaps file clerk. Two additional clerk-typists will also be needed.

3. The above is based on the assumption that AMS will produce all the city plans under contract with a minimum of supervision and research from us. If AMS will require considerable research, it is possible that another professional will be needed.

4. Estimate of maps needed -- 50.
